Issue No.: RR16, 12 April 2020

COVID-19 has been declared as a global pandemic by World Health Organization (WHO) and identified as a 'Notified Disaster' by Ministry of Home Affairs. COVID-19 has severely disrupted lives and economies across the globe. This has tested public health preparedness to the optimum level even in developed countries who are still struggling to deal with the situation.

Government of India has announced a "lockdown" across the country for 21 days and advised citizens to maintain "social distancing" to check spread of the disease. With economic activities under suspension, and cases of COVID-19 cases increasing, a humanitarian challenge is unfolding day by day. People at the bottom of the pyramid, especially, the migrant workers in the cities, factory workers, daily wage earners, farm laborers, etc. are the worst affected and struggling to arrange daily essentials such as food and medicine.

CII is extending all possible support to the affected people during times of such crisis. The Relief and Rehabilitation Interventions of CII include awareness building regarding the best hygiene practices, importance of handwashing and social distancing, and distribution of Personal Protective Equipment, Hygiene kits, Ration kits other daily and essentials among the vulnerable communities
